

# Important information regarding Corona virus

Dear guests,

Due to the prolongation of Hungarian COVID-19 restrictions, we regret to inform you that we had to cancel all our December reservations. This means our winter break had an unexpected early start. We hope to welcome you again from 11 March 2021.

At Irota EcoLodge we have implemented the following measures:

- The villa's will be thoroughly cleaned. Surfaces, buttons and door knobs will be disinfected after each stay
- Bed linen and towels will be washed at 60 degrees
- Contactless check-in is possible upon request
- Cancellations, if related to the Corona virus, can be made without penalty. [See our special conditions.](#)

Irota EcoLodge is located at end of a dead-end village. The three villa's are stand-alone and have their own garden so you will not encounter other people. You can safely take a walk in the forest, where you won't meet anyone else. Your well-equipped large kitchen is designed for self-catering. However, we are happy to ask one of the village's best cooks to prepare lunch or dinner for you. Internet connection is fast and reliable enough to work from or stream video.

Visit [www.irotaecolodge.com](http://www.irotaecolodge.com) for general information or to make direct bookings. For enquiries, feel free to contact us at [info@irotaecolodge.com](mailto:info@irotaecolodge.com) or +36 48 349260.

8 December 2020
